

What are you recommending to your patients who do not floss regularly?

Management of interdental biofilm is important in preventing gum disease and interproximal caries. **G·U·M® Proxabrush® Go-Betweens® Cleaners** are the easiest way to help non-compliant flossers follow your prescribed prevention plan.

- Triangular shaped bristles remove up to 25% more plaque than conventional round bristles¹
- Unique antibacterial agent on bristles reduces bacteria proliferation in between uses²
- Nylon coated wire eliminates galvanic shock sensation
- Available in 6 sizes, and color coded for easy recommendation

Now the Most Recommended Interdental Brand in Canada comes also in Bulk Format.
(Boxes of 36 individually wrapped brushes are still available.)

1. Data on file.

2. Bristles incorporate a patented antibacterial agent for continuous bristle protection during the recommended life of the brush. Bacterial growth that may affect the bristles is inhibited. The agent on the bristles does not protect against disease. As always, rinse your brush after use.
