HOW TO FLOSS LIKE A PRO

Every mouth is unique, with different size spaces between your teeth.

Did you know, the type of floss you use can make a difference in how well it removes plaque? Ask your dental hygienist for the GUM® flossing solution that fits your specific needs.

IS THERE AN ALTERNATIVE TO FLOSSING?

If string floss isn't for you, GUM® Flossers, Soft-Picks® or Proxabrush® interdental cleaners are easy to hold, clean hard-to-reach places, and perfect for on-the-go use.

WHAT IF I HAVE BRACES, BRIDGES, IMPLANTS OR CROWNS?

- GUM® EasyThread® Floss has a built-in threader which can easily be inserted under orthodontic wires, bridges, and implants.
- GUM® Eez-Thru® Floss Threaders help you quickly and easily insert your favourite string floss to access and clean around any dental appliance.
- GUM® Soft-Picks® and Proxabrush® Interdental cleaners are both safe and easy on-the-go cleaning solutions for any dental appliance.

HOW YOU BRUSH MATTERS

A great brushing technique will make all the difference!

HOW TO MAKE THE MOST OUT OF YOUR ORAL CARE ROUTINE

Did you know brushing alone only covers 3 of 5 tooth surfaces?

For a complete oral care routine, it's best to use a toothbrush in combination with floss or an interdental cleaner.
